NB. The FAA/Pact agreement is either honoured in whole, or not at all. If you are asked to work on the 'FAA Pact Agreement' or 'FAA/Pact rates' the agreement should be honoured in full as a minimum set of terms.

The agreement becomes part of your contract of employment and, if a production or an agency offers you a 'deal' where part of the agreement is changed, or not honoured, this is a breach of your contract of employment.

Please provide detail of your complaint on page two of this form:

Nature of your complaint	Yes or No?
Because of the location, I expected that production would employ me under the FAA/Pact Agreement (or rates) but, instead, the employer offered 'a deal'.	
I was told that I was engaged under the FAA/Pact Agreement (or rates) but the employer didn't stick to the agreement in full. The agreement was breached.	
I was not employed under the FAA/Pact Agreement but I believe that this production should have done as the producer is a Pact member and usually applies this agreement	

	Yes or No?
Was it a "Continuous Working Day" (CWD) as defined in the agreement?
