91,000 JOB CUTS

Stop the vandalism of our civil service

Prospect members in the civil service and wider public sector are proud of the jobs they do and the contribution they make in defending, protecting, supporting and enhancing all of our lives. But they are the subject of successive attacks by the government.

The UK government's plan to slash 91,000 civil service jobs is a new low – reminiscent of the employment practices of companies like P&O. Ministers don't just want to slash jobs, they also want to attack redundancy terms.

Members have endured more than a decade of pay restraint, which has seen pay lag behind those doing similar jobs in the wider economy. Combined with rising inflation, many members are facing a cost-of-living crisis this year.

Over the summer, Prospect will be organising, campaigning, and building for action. We ask that you be part of it – and encourage your colleagues to join us, too. The more members we have, the greater voice it gives us.

You can help us build a campaign fighting for fair pay, standing up against job losses and defending redundancy terms:

- ✓ Encourage your colleagues to join Prospect.
- ✓ Hold branch meetings for members and potential members.
- ✓ Invite speakers from your Public Services Executive.
- ✓ Put pressure on your employer and the government.

Together we can campaign, organise and build for action. We are proud and determined to represent you and your colleagues.
