Prospect is the union for specialists in digital tech. From software engineers and web developers to data scientists, we can help you succeed at work.

We're ambitious and enthusiastic about the future of digital technology. We think the industry should be setting the highest standards for fairness and engagement at work. So Prospect is working to:

- ✓ increase diversity and inclusion in tech education and employment and close gender pay gaps
- ✓ improve work-life balance
- ✓ 'level-up' pay and conditions across the digital industries.

We can also help you at work with:

- ✓ **Quality representation** including on pay, working conditions, and many other issues.

- ✓ **Professional advice** on workplace issues like pay, leave, maternity and paternity rights and other situations you might meet at work.
- ✓ Access to **free legal advice** and representation should you ever need it.
- ✓ We also offer a range of **discounts** on cinema tickets, some Apple products, insurance services and much more.

As a trade union for modern working life, Prospect membership is not just for employees, we also support contractors, consultants, freelancers, interns and others.
