; font-family: arial, helvetica, sans-serif; padding: 5px 18px; word-wrap: =
break-word;"><p>Dear Colleague</p><p>Please find attached a draft policy on=
Menopause and workplace.</p><p>Civil Service HR, in collaboration with dep=
artments, network groups and external stakeholders, developed a Model Menop=
ause and the workplace Policy to reflect the approach to supporting civilia=
n employees experiencing the menopause in the workplace. The policy has bee=
n adapted for Defence civilian employees and their line managers and it pro=
vides best practice guidance about menopause, highlights the support and fl=
exibilities that is available, how to support the attendance process and it=
signposts to additional resources. The policy builds on the menopause supp=
orting guidance products already have in place which was developed by the C=
ross Government Menopause Network.</p><p><strong>Summary of Policy</strong>=
</p><p>A summary of the key points that has been addressed in the policy are=
as follows:</p><ul><li>Raising awareness of menopausal symptoms and how it=
can affect attendance and performance</li><li>The role of the manager and=
how the they can facilitate open and honest discussions with an employee g=
oing through menopause</li><li>The purpose of workplace adjustments and the=
options that can be put in place to support an employee at work</li><li>Ho=
w managers can support menopause related absences with guidance around abse=
nce review points and disability leave</li><li>To highlight and signposting=
to internal support (EAP, OH, RAST), resources, toolkit, healthcare suppor=
t and the Civil Service training available to employees and line managers</=
li></ul><p>Another important area being looked at is how the MOD record men=
opause related sickness absences. Currently, such absences are recorded und=
er the =E2=80=98=E2=80=99Kidney, Urinary and Gynaecology=E2=80=99=E2=80=99=
absence reason on MyHR. As part of a review of all sickness absence reporti=
ng, it has been agreed that introducing a way to specifically record menopa=
use on the sickness absence page of MyHR would be beneficial. This would pr=
ovide more in-depth data on menopause absences that will inform future poli=
cy and initiative development. The options for recording menopause sickness=
absence are currently being worked through with the MyHR team and Defence =
Statistics team. This document is for internal use only.

This revision: https://library.prospect.org.uk/id/2022/002276022103-07

d provides sufficient data. Once this has been decided, paragraph 46 of the policy document will be updated accordingly.

Action was also taken last year to add a menopause category to the MI reports. This was to give MOD and the Trade Unions an insight into how this was impacting emotional wellbeing. This action was completed and is now available for us to monitor through a quarterly utilisation report.

This draft policy has been shared to make representatives aware of its existence and the plans to simplify the recording of menopause related absences on MyHR. The aim is to launch the policy beginning of April as part of the Civil Service wide plans for a formal launch.

If you have any comments or feedback, I would be grateful if this could be provided by 28 February 2022 to inform a discussion being held on 1 March 2022.

Regards

Julie
